

Department of PG Commerce

M.Com. Computer Applications

S.No.	Course Code	Course Name	Course Outcomes
SEMESTER - I			
1.	18PCPC11	Core Course - I: Advanced Financial Accounting	<ol style="list-style-type: none">1. The contribution and inherent limitations of financial statements in meeting stakeholders' needs for financial information.2. Demonstrate the ability to assess a situation, identify issues and alternatives, and provide a recommendation using advanced accounting knowledge and ethical professional judgment.3. Students could understand history, procedures and guidelines of accounting standards.4. Understand the need of convergence of Indian Accounting Standards.5. Students could get acquainted with vital accounting standards and make them familiar with the accounting procedures for different types of business.6. Analyze and evaluate the accounting position of hire purchase, Branch and Departmental accounting.7. Students have been able to calculate various accounting ratios and analyse the position of a business pertaining to sanctioning of financial facilities.8. Students could obtain a thorough knowledge on partnership accounting
2.	18PCPC12	Core Course - II: Global Business Environment	<ol style="list-style-type: none">1. It facilitates the students to understand the conceptual framework of business environment and generate interest both in Domestic and International Business.2. To know how an entity operates in a business environment.3. Understand how businesses are organized to achieve their purposes.4. Students could know the impact of the economic, political, legal and social factors impact on businesses.

S.No.	Course Code	Course Name	Course Outcomes
			<ul style="list-style-type: none">5. Students could have a broad understanding of international trade theory and trade policy instruments and implications for international business.6. He can gain knowledge on the industrial policies of the country at various times. Further he could understand the rationale for industrial sickness and measures to redress it.
3.	18PCPC13	Core Course – III: Statistics for Research	<ul style="list-style-type: none">1. Highlighted the importance of facts and figures in day to day life.2. Equipped the students to understand the relationship between the variables in research.3. Enhanced the capabilities of students to select apt tool for the research work.4. Facilitated in calculating the dependent variable from independent variable.5. Helped to learn the value of the unknown variable by estimation or prediction calculation.6. Enhances the study of formulating hypotheses and testing them.7. Aided to choose the correct Parametric and non parametric statistical tool to test the hypothesis.
4.	18PCPC1P	Core Course – IV: Multimedia Lab	<ul style="list-style-type: none">1. Design various shapes and advertisement2. Design to know Flow Charts3. Enhance the skill to create and style in Visiting card and ID card creation4. Demonstrate the Masking and Morphing techniques in Flash5. Design calculation and login forms6. Understand the various Animation techniques, Paddle Mask effect and frame by frame7. Creates Animation using various techniques in Photoshop
5.	18PCPO11	Elective course:1. Human Resource Development	<ul style="list-style-type: none">1. Highlight the objectives and functions of HRM.2. Familiarize with the concept of job analysis and human resource accounting.3. Exposure on employees' recruitment process in industries.

S.No.	Course Code	Course Name	Course Outcomes
			<ol style="list-style-type: none"> Elucidate the various compensation practices for employees in an organization. Familiarize with the techniques of performance appraisal. Highlight the importance of workers participation in management.
6.	18PCP01P	Computerized Accounting with Goods and Service Tax Lab	<ol style="list-style-type: none"> Students could understand the business accounts maintenance. Able to get employment opportunities at anywhere. Understand GST rates for purchase and sale of each product. Aware about various types of accounts maintained by the business concern. Came to know input tax credit and set off procedure . Enhance students to prepare and file GST returns on behalf of the assesses.
SEMESTER – II			
7.	18PCPC21	Core Course – V: Corporate Accounting	<ol style="list-style-type: none"> Be familiar with the regulatory environment in which the companies are formed and operate. Become trained reporting requirements of the Corporations Act and accounting standards. Understand the advanced issues in accounting for assets, liabilities and owner's equity. Be aware of the accounting requirements for a corporate group and familiarity with the theory underlying the methods used to account for inter-company investments. Identify the nuances involved in mergers and acquisition process and the techniques required to handle post merger. Able to prepare accounts in books of insurance companies and also to calculate amount of claim. Capable of preparing of final accounts of banking companies and consolidated balance sheet.

S.No.	Course Code	Course Name	Course Outcomes
8.	18PCPC22	Core Course – VI: Micro, Small and Medium Enterprises	<ol style="list-style-type: none">1. Apply the knowledge of Entrepreneurship to Future Career Development.2. Gain knowledge of to Manage Human, Financial and Informational Resources in Small Organization3. Categorize the Functional Areas of a Micro and Small business.4. Recognize the importance of Calculated risk Management and Perseverance.5. Understand the Actions taken to acquire and Retain Customers, Goods and Services and measure/track financial performance.6. Identify the Growth prospect to Micro and Small businesses.
9.	18PCPC23	Core Course – VII: Object Oriented Programming with C++	<ol style="list-style-type: none">1. Pupil can gain the basic knowledge on Object Oriented concepts.2. Students can develop applications using Object Oriented Programming Concepts.3. They will be enhanced to explain programming fundamentals, including statement and control flow and recursion.4. Students could develop his ability to implement features of object oriented programming to solve real world problems.5. Students could analyze, write, debug, and test basic C++ codes using the approaches introduced in the course.6. Students could familiar with using C++ functions and the concepts related to good modular design.
10.	18PCPC2P	Core Course – VIII: Object Oriented Programming with C++ Lab	<ol style="list-style-type: none">1. Develop program using Object Oriented Programming concepts2. Implement the features of Class and Object to solve complex real world problems3. Enhance the skill to create, error correction (debug) and run C++ codes4. Demonstrate the implementation of functions, Array, Constructors operator overloading5. Understanding the programmatic structure of Inheritance and its types
11.	18PCPN21	Non Major Elective: Entrepreneurial	<ol style="list-style-type: none">1. Students gain knowledge and skills needed to run a business.2. Recognize a business opportunity that fits the individual student.

S.No.	Course Code	Course Name	Course Outcomes
		Development	<ol style="list-style-type: none"> Students understand the techniques of how to launch the individual's entrepreneurial career. Apply an ethical understanding and perspective to business situations. Analyze the internal/external factors affecting a business/organization to evaluate business opportunities. Apply knowledge of leadership concepts in an integrated manner.
SEMESTER – III			
12.	18PCPC31	Core Course – IX: Income Tax Law and Practice	<ol style="list-style-type: none"> Gain knowledge on major source of Income under Income Tax. Understand the status of an assessee for calculating the Source of Income. Gain a knowledge on the building exempted from Income from house property and the systematic way to calculate Income from house property. Students gain knowledge to calculate tax amount of all kinds of assessee. Familiar with the hierarchy of the Income Tax officials and their powers with the help them to apply for the same post. Gain knowledge on the procedural format of tax return and assessment of Income Tax. Aware of the concept TDS, TCS and Advance payment of tax.
13.	18PCPC32	Core Course – X: Research Methodology	<ol style="list-style-type: none"> Students could understand the objectives of research and the steps involved in research process. They can use different data collection methods and sampling design techniques in their own research. Analyze the collected and processed data with the help of statistical tools. Interpret the data and prepare a research report. Students can have understanding of the various approaches and tools required for special decision situations.

S.No.	Course Code	Course Name	Course Outcomes
			6. They can understand the challenges while implementing successful projects and also the project review process.
14.	18PCPC33	Core Course – XI: Visual Programming	<ol style="list-style-type: none">1. Students can gain the basic knowledge on Visual programming concepts.2. They can have the ability to develop applications using Window Environment Concepts using Forms.3. Students can explain programming fundamentals, including statement, control flow and recursion.4. Ability to implement Functions and Sub Procedures to solve real world problems.5. Analyze, write, debug, and test Visual Basic codes using the approaches introduced in the course.6. Students can get rudimentary knowledge in using VB Flex grid, Menus, MDI forms and the concepts related to good Interactive design.7. They can have the basic knowledge to implement Graphics and File mechanism in program design.
15.	18PCPC3P	Core Course – XII: Visual Programming Lab	<ol style="list-style-type: none">1. Students could learn the basic Knowledge on VB concepts.2. He can develop simple programs using the basic Form design of Visual Basic.3. He can analyse the window programming and create interactive programs.4. He can develop skill in using dialogue box , list box, Rich Text Box, Message box etc.5. Students will be enhanced to create interactive design within Forms and Modules and develop projects using DAO, ADODC.
16.	18PCPC3P	Visual Programming Lab	<ol style="list-style-type: none">1. They can understand the basic international marketing theories and concepts to understand the environment.2. Students can follow business analysis in order to develop appropriate international marketing objectives and strategies.3. Pupil could analyse and evaluate data, information, and evidence related to

S.No.	Course Code	Course Name	Course Outcomes
			<p>international business opportunities and threats relevant in the current world.</p> <ol style="list-style-type: none"> Students could Communicate, clarify, and present to peer audiences in a professional setting and work in a team reflected in assessment activities. Students themselves can produce a report considering the marketing of a business to consumers or business customers in different cultural contexts with consideration of ethical conduct. They can acquire an in-depth knowledge and understanding of international business strategy processes of all types of firms and be able to outline the current challenges in international marketing and possess skills to propose solutions to them.
17.	18PCPO31	Elective Courses: 5. Operations Research	<ol style="list-style-type: none"> Able to take right business decision by knowing optimal utilization of minimum resource. Able to formulate business strategy. Students learn to minimize the transportation cost by transporting different quantities from one origin to another destination. Students can analyse the storage problems by trial and error method. He could have a perusal on the application of queuing theory in practical situation. Take correct decision in business problems by applying decision theory. Students can design the Schedule for the projects by drafting diagrams.
SEMESTER – IV			
18.	18PCPC41	Core Course – XIII: Goods and Services Tax and Customs Act	<ol style="list-style-type: none"> Gained knowledge about the various duties levied on goods. Understand the differences between direct and indirect taxes. Highlighted the reason for restrictions on certain goods for import and export. Procedural checkup of goods in customs like warehousing, Baggage rule

S.No.	Course Code	Course Name	Course Outcomes
			drawback of duties are clearly understood. 5. Familiarize with the concept of different types of GST and the Rates of levy. 6. To understand the registration procedure under various Indirect tax systems. 7. Gained knowledge about the offences and penalties in various Indirect taxes.
19.	18PCPC42	Core Course – XIV: Advanced Cost Accounting	1. Students can evaluate the costs and benefits of different conventional and contemporary costing systems. 2. They could understand methods of calculating stock consumption. 3. They will be facilitated to identify the specifics of different costing methods. 4. Students can describe the cost concepts, cost behaviors, and cost accounting techniques that are applied to manufacturing and service businesses.
20.	18PCPC43	Core Course -XV : Management Accounting	1. Possess a managerial outlook at accounts. 2. Various cost accounting principles 3. Solve problems related to cost of production 4. Critically analyse and provide recommendations to improve the operations of organisations through the application of management accounting techniques 5. Demonstrate the need for a balance between financial and non-financial information in decision making, control and performance evaluation applications of management accounting 6. Evaluate complex ideas and tolerate ambiguity in managerial and organisational problem-solving 7. They could enhance their skill in decision making with the help of information and costing sides.
21.	18PCPC4P	Core Course – XVI: Web Designing lab	1. Students can develop basic Web designing using html tags. 2. He will learn to use the features Frame, Hyperlinks to connect more web pages. 3. He could develop Web page design using html table, image marquee tags. 4. He can learn to implement java scripting for interactive web page design.

S.No.	Course Code	Course Name	Course Outcomes
			5. He can learn the program construction using java script.
22.	18PCPJ41	Core Course – XVII: Commerce Oriented Project & Viva Voce	<ol style="list-style-type: none">1. Rudimentary research knowledge is developed among the students.2. Learned to frame hypothesis and its testing procedure.3. Sharpen Students mind through research skill.4. Able to give suggestion for the problems faced by the business concern.5. Able to understand the environment through his/her research skill.6. Understand the different statistical tools which are used to test the hypothesis.7. Able to convey his/her research outcomes through articles in the reputed journals.8. Can do higher studies with learned research knowledge.9. Students are well versed with the techniques of writing a good research report.
