Q7	The scope of acquiring employable and entrepreneurship skills from Curriculum.
Q8	Inclusion of human values and ethics in Curriculum
Q9	The sufficiency of the courses related to industry included in Curriculum
Q10	The applicability of the domains and the tools used for designing the experiments in terms of existing practices in the Industry.

Suggestions

- Mathematics in Machine Learning, Mathematics for Data Science
- B.com (professional accounting) especially for Chartered Accountants
- curriculum is too much theoretical and less use of industry day to day skills. the connection between theory and real world usage needs to be explained
- Keep giving latest tools expertise
- Improved computer knowledge
- Spoken English Class for All department Students

- Any latest technology ex: ReactJS, NodeJS, Django, MongoDB, PostgreSQL, supabase, prisma, NextJS, Springboot, Flutter, React Native, Swift, Rust, Go, Typescript, TailwindCSS
- AI & ML and Cloud Computing(As separate course) and Data Science & Analytics(Lab for PowerBI)
- Additional Certification recording the subject they studied and also that certificate may helpful for the career growth

Action Taken

The feedback analysis was given to corresponding department and informed to take necessary action in the forecoming Board of Studies Meeting.
